

Sir: My comment is in reference to the Sinclair Broadcast Group Inc. Corporate Headquarters - Hunt Valley, MD.

It is my understanding that the FCC grants authority to use the airwaves to "serve" the public. If Sinclair Broadcast intends only to the airwaves only to represent the Republican Party ideas, then this can only be a one-sided representation. And that will not be in the public interest. If the FCC grants them this air-time, then, in all fairness, they should also air (immediately following Sinclair's broadcast) opposing view of the Democratic Party such as "Going Upriver" for example and the Independant and Green parties. Thankyou for reading my comments.

Sincerely Yours,

John W. Meyers
